DETAILED ACTION

- (1). Applicant's Supplemental Response filed on October 20, 2006 has received.

The rejection of claims 1-11 in prior Office Action dated June 5, 2006 is withdrawn in response to the Supplemental Response.

Allowable Subject Matter

- (2). Claims 1 - 11 are allowed.

Reasons for Allowance

- (3). The following is a statement of reasons for the indication of allowable subject matter: The instant claims are allowed primarily in view of applicant's Affidavits and Supplemental Response, coupled with supervisory opinions to the fact that closest prior art reference Mitsuo (JP 08-269112) does not possess the block density greater than 0.5, also the criticality of block density at least 0.5 in the dispersing agent is illustrated in Table 4 of applicant's Specification. Such evidence of unexpected results or surprising properties is sufficient to overcome any inference of obviousness raised by Mitsuo (JP 08-269112) or other prior art references. Accordingly, instant claims 1-11 are to define allowable subject matter.

As of the date of this Notice of Allowability, the Examiner has not located or identified any reference that can be used singularly or in combination with another reference including above-cited reference to neither suggest nor teach the present invention anticipated or obvious to one of ordinary skill in the art.
